

November 12      Demo Play Day

The election of 2019 NMQA Board of Directors will take place at this meeting.

The program will feature four quilters demonstrating techniques for finishing your quilts:

- **Tony Davis** will share how to prepare your finished quilt top for long arm quilting and the materials/measurements you will need to provide
- **Tisha Cavanaugh** will provide information on whether you will want to select custom or pantograph designs for your finished quilt top and the differences in each
- **Becky Welch** will share her extensive knowledge of quilting threads and how different varieties will complement your design
- **Janice Wallace** will demonstrate how to properly bind your finished quilt after it has been quilted

Attendees will rotate through the four stations with our guest experts/members. At the conclusion of the rotation, we will have time for questions and answers from the panel of four.
